IRIS Release Notes

Version 5.1.0.7 – Released 10/9/2016

Pre-Arrival		
Description	Type	Ticket
Revision to Assurance Unarrived Cases Report • "Allocation date" displays correct value instead of pulling "Placement date" • Added "Placement date" • Removed "Placement Code"	Bug	149443
Custom Report Co-Sponsor New data source added for Co-Sponsor information	Enhancement	149188
Co-Sponsor Email Address Added a field to capture Email Address from the Manage Co-Sponsor screen. Displaying Email Address from the co-sponsor details screen of the co-sponsor tab	Enhancement	149188
AOR – Post Go-Live Issues The following post go-live AOR issues were resolved: • Affiliate address and phone number are now printing on the DS-7656 and DS-7699. • IRIS no longer presents an error upon clicking on a CAM AOR in the "Minor Aging/Aged Out" notification. • Rather than "DS-7656", "DS-7699" now prints at the bottom of the Continuation Pages on the printable CAM form.	Bugs	149820

Administration		
Description	Type	Ticket
Standard Report Hyperlinks Right clicking on hyperlink now allows report to open in new browser window	Enhancement	149736
Custom Report Date of Birth Field In data source, IRIS_Individual field Date of birth is now a "date" data type; previously it was a character data type which has limitations in using with filters and reports	Bug	149715
IRIS Email Logging Improved system logging to capture IRIS sent items to include addresses being CC'ed. Previously, CC addresses were not logged. This will help with confirmation that IRIS is sending emails.	Enhancement	149375
