Pre-Arrival		
Description	Type	Ticket
P3 & CAM AOR - Overflow Warning Modified P3 & CAM AOR code to provide user with a warning when more data has been entered into IRIS than will fit on the DS-7656 & DS-7699 forms. Includes ability to print out which members did not fit so the remaining data can be manually added to a continuation sheet.	Enhancement	170127
AOR - Document Removal Added AOR document removal capability for affiliates consistent with the way they are able to remove documents in other areas of IRIS.	Enhancement	170055
eABN/eDOM issue Fixed a bug where the parsing of Remarks containing a single quote caused IRIS to erroneously not remove a case from a ProFlight.	Bug	173216
AOR Letter Import Updated import process so that when importing an AOR Letter PDF file in which the PDF content is not text, then a warning message is displayed. Note: Some AOR letter PDFs contain images and some contain text. If the PDF text is an image then IRIS cannot read and process the file. In the latter case a warning message will indicate the PDF may not be processed	Enhancement	172117
