

# IRIS Release Notes v.6.8.11 - 14

June 17<sup>th</sup>, 2024

## Enhancements

Request ID	Subject	Category
381604	Program Service Task Updates	Post-Arrival
<ul style="list-style-type: none"><li>• Tasks marked as 'Required' are now auto-generated upon arrival date update and case enrollment in specific programs, including program service tasks in IRIS.</li><li>• Program service tasks are now displayed on the MG Case page as requested, and the Case Note print function includes all case notes in IRIS.</li></ul>		
381912	R&P Period Report Language	Post-Arrival
Updated the service delivery question to clarify timelines for basic needs and core services. The new verbiage asks if any services were not provided within their required timelines and specifies the steps to take if the answer is "No."		
382178	RA to RA Case Transfer Form	Pre-Arrival
Updated the case transfer form in IRIS to include new questions and additional data collection. Existing cases will continue to use the old transfer form, while all new transfers will use the updated form.		
382514	RA to RA Case Transfer – Custom Report Update	Reporting
The Case Transfer out report has been updated to enable daily submission of Case Transfer Out reports by RAs as requested by RPC.		
381387	IRIS Page Performance Improvement	Administration
Allocated more resources towards IRIS Server to improve performance of IRIS sites.		

## Bug Fixes

Request ID	Subject	Category
380436	API Error	Administrator
Fixed Loan API error reported by some RAs that caused issue in importing data. JIRA Ticket Reference: <a href="#">AP-8073</a>		

<b>383480</b>	<b>Affiliate Program Capacity Not Displaying Properly for FY 2024</b>	<b>Administrator</b>
Resolved an issue where the Program Capacity page was not displaying correct values for the "Total (Refugee, SIV & APA Combined)".		
<b>380917</b>	<b>Minor(s) Aging/Aged Out notification error</b>	<b>Pre-Case</b>
Fixed an issue where minors aging out of 18 were appearing in notifications once the case status changed to "Arrived through R&P," as reported by our RAs.		
<b>381760</b>	<b>"Add Custom Fields" error – IRIS Test</b>	<b>Post-Arrival</b>
Resolved an issue reported by an RA where the "Add Custom Fields" feature in Program Service Tasks was causing a "redirected you too many times" error.		
<b>381873</b>	<b>Assurance Export Error</b>	<b>Pre-Arrival</b>
Resolved an issue where the Placement City and State updated by RAs on the Assurance page were not correctly displayed as "Assur_DestinationCity" and "Assur_DestinationStateCode" in the assurance export to RPC.		
<b>381982</b>	<b>Dashboard Notification Delay/Missing</b>	<b>Administration</b>
Fixed an issue where IRIS Dashboard notification was not refreshing continuously and were unable to display cases. To fix this issue; overall IRIS performance was optimized in Request #381387.		
<b>383479</b>	<b>VR&amp;P Program not displaying in Enrolled Programs Report</b>	<b>Reporting</b>
Fixed an issue where VR&P program was not displaying correctly for some database and reporting functionality.
