

IRIS Release Notes v.6.8.16

July 30th, 2024

Enhancements

Request ID	Subject	Category
385793	VR&P – Default Status of Tasks to be set as ‘Pending’	Post-Arrival
VR&P Post-Arrival tasks now have a default status set to ‘Pending’ giving users ability to efficiently track tasks yet to be completed.		
385802	VR&P Task Status Option	Post-Arrival
VR&P Task status options are limited to “Completed, Declined by Client, Not Applicable” giving users ability to choose from relevant status for each task.		
385887	Feasibility to Click Service Name to Sort Service Tasks List	Post-Arrival
Users now can click on column names to sort tasks list in ascending or descending order. This includes sorting by Service Name, Task Name, Task Due Date, Status, Task Completion Date.		
385988	Assign a Case to Case Worker and send Email Notification	Post-Arrival
Introducing the "Assign a Case Worker" button under the Tasks tab, enabling RAs and Affiliate Staff to assign refugee cases and send immediate email notifications to the assigned case workers. Case worker name appears on the case information.		
385990	Added "Print Case Notes" Button and Sorting of Notes by Task Service Date	Post-Arrival
Added a "Print Case Notes" button to the Tasks page, allowing you to view and print all case notes in chronological order, including entries from both the RP Case Notes page and Tasks, with Task Names clearly indicated.		

Bug Fixes

Request ID	Subject	Category
386776	SSRS Report - Daily Travel Summary	Reporting
Fixed data issue reported by CWS where deleted travel updates were excluded from the report, ensuring accurate reflection of travel history data. JIRA Ticket Reference: AP-9361		
386212	Custom Field Schema Refresh	Administration

Issue was identified where schema refresh for custom fields was taking too long. Issue has been resolved.		
387202	IOM Travel Import	Post-Arrival
Identified an issue where IOM services were offline causing travel import and has been resolved.		
387009	PEX Activation Issue	Post-Arrival
Resolved issue where PEX was unable to activate cards.
